

FEATURE	JOURNEY® vs TRAILBLAZER®	CARGOSPORT® vs CM®	SHADOW™ vs ELIMINATOR®
1. Tongue Jack	Journey provides an easy to operate, heavy-duty 2000# zinc coated Fulton® jack which looks better than the Trailblazer's 1000# painted jack. Painted jacks can flake and rust over time. Plated jacks will not. Journey also provides a protective rubber cap on the rod end. Trailblazer does not.	CargoSport provides an easy to operate, heavy-duty zinc coated Fulton jack which looks better than CM's painted jack. Painted jacks can flake and rust over time. Plated jacks will not. CargoSport also provides a protective rubber cap on the rod end. CM does not.	Shadow provides an easy to operate, heavy-duty zinc coated Fulton jack which looks better than Eliminator's painted jack. Painted jacks can flake and rust over time. Plated jacks will not. Shadow also provides a protective rubber cap on the rod end. Eliminator does not.
2. Safety Chains & Safety Clamps	Journey has DOT compliant safety chains and clasps. Safety clasps are not standard on Trailblazer.	CargoSport has DOT compliant safety chains and clasps. Safety clasps are not standard on CM.	Shadow has DOT compliant safety chains and clasps. Safety clasps are not standard on Eliminator.
3. Front Cap	Journey provides an aerodynamic ABS color throughout front cap. Trailblazer uses a fiberglass front cap which can fade and show scratches and chips.		Shadow provides cast front corners with stainless steel insert while Eliminator uses a fiberglass front cap, which will fade and show scratches and chips. The Shadow cast front corners with stainless steel insert provide a much cleaner and more attractive look and makes your trailer worth more at trade in time.
4. Exterior Skin	Journey has a 5 degree bend on seams which eliminates unsightly gaps and helps keep the elements out. Trailblazer does not offer this feature.	CargoSport has a 5 degree bend on seams which eliminates unsightly gaps and helps keep the elements out. CM does not offer this feature.	Shadow has a 5 degree bend on seams which eliminates unsightly gaps and helps keep the elements out. Eliminator does not offer this feature.
5. Exterior Fasteners	Journey uses T-1000 plating with clear coat on its exterior fasteners, which looks better and lasts longer.	CargoSport uses T-1000 plating with clear coat on its exterior fasteners, which looks better and lasts longer.	Shadow uses T-1000 plating with clear coat on its exterior fasteners, which looks better and lasts longer.
6. Sidewall Construction		CargoSport's exclusive patented dust proof sidewall construction, with boxed outriggers not only stops dust and fumes, but adds additional strength and stiffness to the sidewalls of your trailer. CM models cannot provide this feature.	Shadow's exclusive patented dust proof sidewall construction, with boxed outriggers not only stops dust and fumes, but adds additional strength and stiffness to the sidewalls of your trailer. The Eliminator model cannot provide this feature.
7. Exterior Trim	Journey has a modern looking truck body-style extruded aluminum trim that is stronger and better looking than Trailblazer's cheaper looking RV-style vinyl insert trim.		
8. Tires		CargoSport comes standard with premium Maxxis® trailer rated radial tires versus an off brand on CM trailers.	Shadow comes standard with premium Maxxis® trailer rated radial tires versus an off brand on Eliminator trailers.
9. Axles	Journey's axle has a GVWR of 2990# giving it more capacity than Trailblazer's GVWR of 2500#.	CargoSport use Dexter® axles, the premium brand in the industry. They are built to last and deliver a smooth and safe tow. CM uses an ALKO® axle.	Shadow use Dexter axles, the premium brand in the industry. They are built to last and deliver a smooth and safe tow. Eliminator uses an ALKO axle.

FEATURE	JOURNEY® vs TRAILBLAZER®	CARGOSPORT® vs CM®	SHADOW™ vs ELIMINATOR®
<b>10. Taillights</b>	When ordering Journey's optional rear ramp door, the taillights are mounted in corner posts, which provides for better visibility when the ramp door is down.	CargoSport's taillights are mounted in corner posts, which provides for better visibility when the ramp door is down.	Shadow's taillights are mounted in corner posts, which provides for better visibility when the ramp door is down.
<b>11. Rear Doors</b>		CargoSport features a optional capacity rated recessed rear ramp door, with hidden hinges, hidden wiring, rear corner post skid plates, and heavy-duty aluminum trim. CM has an optional non-recessed ramp door with exposed hinges, which is an outdated design, unattractive, and vulnerable to rust.	Shadow features a capacity rated recessed rear ramp door, with hidden hinges, hidden wiring, rear corner post skid plates, and heavy-duty aluminum trim. Eliminator has exposed hinges, which is an outdated design, unattractive, and vulnerable to rust. In addition, the Shadow provides a galvanneal hinge with stainless steel pin for flap, with an inside hinge cover, eliminating rust. Eliminator does not provide such anti-rusting features.
<b>12. Paint</b>	All Journey frames are prepped for paint with a phosphate spray wash and all welds are primed with a zinc primer. All exposed framework is painted with a high gloss, automotive quality silver PPG® brand paint. Trailblazer uses black paint and an inferior paint process, resulting in a sloppy and dull finish.	All CargoSport frames are prepped for paint with a phosphate spray wash and all welds are primed with a zinc primer. All exposed framework is painted with a high gloss, automotive quality silver PPG® brand paint. CM uses black paint and an inferior paint process, resulting in a sloppy and dull finish.	All Shadow frames are prepped for paint with a phosphate spray wash and all welds are primed with a zinc primer. All exposed framework is painted with a high gloss, automotive quality silver PPG® brand paint. Eliminator uses black paint and an inferior paint process, resulting in a sloppy and dull finish.
<b>13. Side Door Hinge Hardware</b>	All Journey hinge hardware has stainless steel washers and Teflon® coated hinge pins. Side door hinges are double zinc plated, clear coated and attached with theft-resistant security Torx® bolts. Trailblazer has less attractive hinges and standard Torx bolts which can easily be removed by an intruder.	All CargoSport hinge hardware has stainless steel washers and Teflon coated hinge pins. Side door hinges are double zinc plated, clear coated and attached with theft-resistant security Torx bolts. CM has less attractive hinges and standard Torx bolts which can easily be removed by an intruder.	All Shadow hinge hardware has stainless steel washers and Teflon coated hinge pins. Side door hinges are double zinc plated, clear coated and attached with theft-resistant security Torx bolts. Eliminator has less attractive hinges and standard Torx bolts which can easily be removed by an intruder.
<b>14. Door Hasp</b>	Journey's semi-truck style bolt through hasps are heavier and more secure. Trailblazer's riveted hasps are easier to break into.	CargoSport's semi-truck style bolt through hasps are heavier and more secure. CM's riveted hasps are easier to break into.	Shadow's semi-truck style bolt through hasps are heavier and more secure. Eliminator's riveted hasps are easier to break into.
<b>15. Side Door</b>	Journey 6' & 7' wide models come standard with a 32" side door. Trailblazer only offers a side door as an option.	CargoSport is built with a galvanneal stepwell, which will not rust. The CM model use a steel stepwell which can rust. CargoSport also provides heavy-duty aluminum trim with countersunk screws. The CM model uses a thinner trim with exposed screws which can snag and damage cargo.	Shadow is built with a galvanneal stepwell, which will not rust. The Eliminator uses a steel stepwell which can rust. Shadow also provides heavy-duty aluminum trim with countersunk screws. The Eliminator uses a thinner trim with exposed screws which can snag and damage cargo.
<b>16. Door Seal</b>	Journey uses a premium quality automotive D-bulb seal to provide a better water and dustproof seal on all doors. Trailblazer uses a cheaper RV quality flat foam tape which creates an inferior seal.	CargoSport uses a premium quality automotive D-bulb seal to provide a better water and dustproof seal on all doors. CM use a cheaper RV quality flat foam tape which creates an inferior seal.	Shadow uses a premium quality automotive D-bulb seal to provide a better water and dustproof seal on all doors. Eliminator uses a cheaper RV quality flat foam tape which creates an inferior seal.

**pace** AMERICAN® VS. CARGOMATE®

FEATURE	JOURNEY® vs TRAILBLAZER®	CARGOSPORT® vs CM®	SHADOW™ vs ELIMINATOR®
<b>17. Barlocks</b>	Journey provides protective plastic rub buttons and rubber end caps versus CM's metal-to-metal which can rub through over time, causing rust and damage.	CargoSport provides protective plastic rub buttons and rubber end caps versus CM's metal-to-metal which can rub through over time, causing rust and damage.	Shadow provides protective plastic rub buttons and rubber end caps versus Eliminator's metal-to-metal which can rub through over time, causing rust and damage.
<b>18. Wheel Well Trim</b>		All CargoSport wheel wells are trimmed with bright aluminum ATP. CM wheel wells are trimmed with wood, which may not withstand everyday use.	All Shadow wheel wells are trimmed with bright aluminum ATP. Eliminator wheel wells are trimmed with wood, which may not withstand everyday use.
<b>19. Wiring Safety Feature</b>	Pace American® uses 3M® weather resistant, self-fusing, silicone rubber electrical tape on all brake wire connections. Cargomate® does not.	Pace American uses 3M weather resistant, self-fusing, silicone rubber electrical tape on all brake wire connections. Cargomate does not.	Pace American uses 3M weather resistant, self-fusing, silicone rubber electrical tape on all brake wire connections. Eliminator does not.
