Snow is gone! Spring is here!
April 2008

Dear Chris,

Tulips In Ottawa

After a seemingly endless winter, spring has sprung with temperatures in the mid-twenties. This not only melted the huge piles of snow we had all over our yard but it also awakened much of the population from winter hibernation.

We have never been busier. It's only April and we have already reordered well over 100 utility trailers, cargo trailers and RV trailers.

If there is anything we can do to make your trailering experience better please let us know.

Here's to a great summer for everyone!

Towing Tip #3

There is nothing like the freedom of choice. New vehicles are constantly introduced. As tow vehicles some are better than others.

There are many factors which should be considered when deciding on which vehicle is right for you. Engine, Transmission, Maximum Tow Rating and Wheelbase are some of the criteria which must be analyzed prior to purchase to ensure the vehicle is suitable to tow what you want to tow.

Trailer Life Magazine produces the very comprehensive [2008 Guide To Towing](#) which offers informative articles concerning Selecting a Tow Vehicle, Hitching Methods, Towing Tips and more.

The National Highway Traffic Safety Administration (NHTSA) from the US has also produced an excellent document titled [Towing a Trailer, Being Equipped for Safety](#).

Thank you for your business and continuing support.

Sincerely,

The entire team at Primo Trailer Sales
